The prices tabulated in this summary were taken from the Boston Wholesale Market Report which is published daily from Monday thru Friday, throughout the year, by the Boston office of the Federal-State Market News Service.

Quotations contained represent the general market prices of all major commodities and such minor commodities that are believed to be of interest to those concerned with the Boston area. The most consistent areas of supply, the most popular containers, varieties, grades and sizes of generally good merchantable quality and condition are shown for each commodity.
